DETE BYOx

Connecting to BYOx with a Windows Device (v3.0)

Great state. Great opportunity.

DETE BYOx

Connecting with a Windows Device

This process outlines how staff and students with DETE identities can connect to BYOx using a Windows device. It may vary slightly with different Android versions or devices.

Prerequisites

- User must be a DETE user (i.e. have a DETE identity and login details).
- User must be added to the Staff or Student Active Directory group (<schoolcode>GG_UsrBYO<Staff/Student>).
- User **must** be a local administrator on the Windows laptop or tablet.
- The device **must** be password protected and in the correct time zone.

Connecting to BYOx network as a Staff member or Student

1. Open your wireless settings and select 'DETE-Guest'.

2. Open a browser and attempt to navigate to a non-https site (e.g. http://www.cnn.com).

3. You will be redirected to the BYOx login page. Enter your username using the format below. Enter your password. Read and accept the terms and conditions. Click the *Sign On* button to login.

Username format: 'Region code'\'username' For example, a student in the Greater Brisbane Region: gbn\testuser

Queensland Government	Generic SHS		
		Region	Code
Sign On Velcome to the Guest Por	tal. Sign on with the username and password provided to you. Username:	Darling Downs – South West Queensland	dds
		Fitzroy –Central West Queensland	fcw
	Passwora:	Far North Queensland	fnq

Plea follo	Please wait while we download the Cisco Network Setup Assistant. You will then need to manually run the Setup Assistant and follow the instructions to finish registering this device.				nt and	
	Do you want to run or save NetworkSetupAssistant.exe (4.41 MB) from guestportal.byo.eq.edu.au?				×	
		Run	Save	•	Cancel	50% 🔻

7. Once the download has completed, click Run.

The NetworkSetupAssistant.exe download has completed.	Run	Open folder	View downloads	×

8. If the Windows SmartScreen warning pops out, click *Run* to continue.

9. The Cisco Setup Assistant will launch. Click the Start button.

10. Click the Yes button if security warnings occur when installing certificates. Multiple certificates may be required.

Root Cert	ificate Store	\times	Security Warning
	Do you want to DELETE the following certificate from the Root Store?		You are about to install a certificate from a certification authority (CA) claiming to represent: ROOTCA
	Subject : ROOTCA, RES, EQ, EDU, AU Issuer : Self Issued		Windows cannot validate that the certificate is actually from "ROOTCA". You should confirm its origin by contacting "ROOTCA". The following number will assist you in this process:
	Time Validity : Tuesday, 20 August 2013 to Saturday, 20 August 2033		Thumbprint (sha1): 6A1EC559 7AE8E98F 6C246A22 B0EBF955 E9EEDE9D
Serial Number : 34CB86B6 7AEE5FAF 4CBFD804 C2AAE94A Thumbprint (sha1) : 6A1EC559 7AE8E98F 6C246A22 B0EBF955 E9EEDE9D Thumbprint (md5) : 1AFD609B F62D6873 62FE1700 5B366E35			Warning: If you install this root certificate, Windows will automatically trust any certificate issued by this CA. Installing a certificate with an unconfirmed thumbprint is a security risk. If you click "Yes" you acknowledge this risk.
			Do you want to install this certificate?
	Yes No		Yes No

11. Click *Exit*. You will be automatically connected to the DETE-BYOx network. Otherwise, manually connect to DETE-BYOx through the *Networks* > *WiFi Settings*.

- 12. In the WiFi Settings click on 'DETE-Guest' then Forget.
- 13. Launch a browser and navigate to any webpage. Enter your DETE network username and password when prompted and click *OK*.
